

CHELATED Milk'n'Milk The Best Milk Booster with right proportion of Calcium, Phosphorus, Vitamins , Chelated Minerals & Galactagogue Herbs.

“Milk`n’ Milk” liquid is a milk booster that helps increase milk yield in dairy animals by providing high levels of energy for maximum production and growth. It contributes to strength and general health condition in lactating animals.

- BENEFITS :**
- Improves Milk Production and Fat percentage.
 - To achieve the highest milk production potential of the animal.
 - Improves Immunity and Overall Health.
 - To maintain steady Lactation period.
 - Prevents the Infertility, Milk fever and Mastitis.

COMPOSITION:

Nutritional Value per 100 ml			
Calcium	3250 mg	Copper	500 mg
Phosphorus	1625 mg	Manganese	60 mg
Magnesium	250 mg	Selenium	200 mcg
Vitamin D3	16000 IU	Jivanti	1500 mg
Vitamin B12	200 mcg	Carbohydrates	50000 mg
Zinc	500 mg		

Dosage: Cattle and Buffaloes: Orally 100 ml per animal per day for 10 days in a month.
Calves, Sheep & Goats: 20 ml. twice daily. Or as advised by the consultant Veterinarian.
Route of Administration: Oral.
Presentation: 1 Lt, 2 Lt, 5 Lt & 20 Lt

GenCal-DS High concentration of Calcium, Phosphorus, Vitamins & Galactagogue Herbs. **Double Strength**

GenCal-DS is a Double strength of calcium and phosphorus to maintain the milk yield and maximum production of dairy animals.
 GenCal DS is a unique combination highly effective in lactating animals.

- Benefits:**
- Improves Milk Production and Fat percentage.
 - Improves Immunity and Overall Health.
 - To maintain steady Lactation period.
 - Prevents the Infertility, Milk fever and Mastitis.

Composition: Nutritional Value per 100 ml			
Calcium	3500 mg	Zinc	25 mg
Phosphorus	1750 mg	Manganese	15 mg
Magnesium	200 mg	Biotin	20 mcg
Vitamin D3	15000 IU	Shatavari	500 mg
Vitamin B12	200 mcg		

Dosage: Cattle and Buffaloes: Orally 100 ml per animal per day for 10 days in a month.
Calves, Sheep & Goats: 20 ml. twice daily.
 Or as advised by the consultant Veterinarian.
Route of Administration: Oral.
Presentation: 1 Lt, 2 Lt, 5 Lt & 20 Lt.

BioseQre-AH Broad Spectrum Biocide

BioseQre-AH is an innovative, versatile and powerful of biosecurity formulation effective against all types Pathogenic Virus, Bacteria, Fungus, Protozoa.
BioseQre-AH is an ideal biocide to use in Poultry farms, Hatcheries, Dairy farms and processing units.
BioseQre-AH is Biodegradable and eco-friendly to human, animals and environment.
BioseQre-AH is effective against a wide range of pathogens.

Complete control: Aerial, surface and water system biocide.
Storage: Store in tightly closed containers in a cool dry place away from children. Sweep up powder spillage. Flush residual powder away with plenty of water.
Composition:
 Potassium Monopersulphate compound: 49.8% W/W containing Triple salt Potassium Monopersulphate, Potassium Hydrogen Sulphate and Potassium Sulphate. | **Excipients:** q. s | **Colour:** Tartazine Yellow.

Dosage:
Terminal disinfection: 10 gm / litre water spray.
Aerial disinfection: 5 gm / litre water spray.
Drinking water sanitation: 1gm / litre of water.
Disinfecting equipment, food processing areas, hatcheries etc.: 5-10 gm/ litre of water.
Presentation: 500g, 1kg & 5Kg

LivoStar A Rich Liver Tonic

- Benefits:**
- Improves liver function and weight gain.
 - Stimulates appetite and improves immunity.
 - Supportive supplement after Deworming & Vaccination.
 - For Supportive treatment during Liver damage and dysfunction.
 - Reduces mortality and enhance FCR.

Composition: Each 30 ml Contains:			
Ferrous Gluconate	200 mg	Nicotinamide	45 mg
Ferrous Chloride	80 mg	Calcium Lactate	300 mg
Thiamine HCL	5 mg	Liver Fraction 2 (Derived from 3.75 gm of fresh liver)	150 mg
Riboflavine	5 mg		
Nicotinic Acid	20 mg		

Dosage: Cattle, Buffaloes and Horses: 50 ml twice daily.
Calves, Sheep & Goats: 25 ml twice daily.
Poultry (For 100 birds per day)
Chicks: 10 ml. **Growers:** 20 ml.
Layers / Broilers/ Breeders: 50 ml.
 Or as advised by the consultant Veterinarian.
Route of Administration: Oral.
Presentation: 500 ml, 1 Lt & 5 Lt

GenMin Forte Best Supportive Nutritional product With Probiotics

GenMin Forte is a unique blend of Minerals, Vitamins, Amino Acids and probiotics used for increased productivity in dairy animals.
GenMin Forte enhances the metabolism of animals and thereby improves overall health.

- Benefits:**
- Nutritional support to pregnant animals.
 - Improves milk production and fat percentage.
 - Improves immunity, digestion and overall health.
 - Improves fertility and conception rate.
 - Improves reproductive performance.

Composition: Each kg contains			
Calcium	25.50%	Selenium	10 mg
Phosphorus	12.75%	Vitamin A	700000 IU
Magnesium	13330 mg	Vitamin D3	140000 IU
Manganese	1200 mg	Vitamin E	250 mg
Copper	770 mg	Vitamin B12	3000 mcg
Cobalt	130 mg	L. Lysine	4.4 gm
Zinc	1800 mg	DL. Methionine	1.929 gm
Iron	5000 mg	Bacillus Subtilis	50000 Million CFU
Iodine	20 mg		

Dosage: Cattle, Buffaloes C Horses: 50g daily in feed.
Calves, Sheep, Goat & Pigs : 25 to 30g daily in feed.
In Feed Mixing : 1 to 2kg per 100kg feed.
 Or as advised by the consultant Veterinarian.
Route of Administration: Oral.
Presentation: 1kg, 5kg, 10 kg & 20 kg.

Q-CAL Gel Quick Absorption - Quality Formulation **Tonic Calcium**

Q-Cal Gel is a quality formulation containing Calcium, Phosphorous, Magnesium, Vitamin D3, Vitamin B12, and Cobalt Chloride.

The ingredients present in **Q-Cal Gel** will be quickly absorbed and improves the strength & immunity of the animal.

- Benefits:**
- ▶ Prevents Hypocalcaemia and increase the milk yield.
 - ▶ Overcomes milk fever and associated complications.
 - ▶ Improves Immunity and Overall Health.
 - ▶ As an aid to favour the normal contraction of uterus, normal calving and timely expulsion of placenta.

Dosage:
To prevent Milk fever: Give one bottle at the first sign of calving and give another bottle 6-12 hours post calving, repeat every 12 hours as needed.

Regular Use: For higher milk yield 60-100 ml per animal per day for 5-10 days.
 Or as advised by the consultant Veterinarian.
Route of Administration: Oral.
Presentation: 300 ml.

YEA-LACT Bolus

ADVANCED COMBINATION OF PROBIOTICS AND AMINO ACIDS

Benefits:

- Improves feed utilization.
- Improves fiber digestion.
- Prevents antibiotic induced diarrhoea.
- Increases growth of Ruminant microflora.
- Increases milk production and fat percentage.

Composition: Each bolus Contains:

Live Yeast culture : 3g, Live Lactobacillus sporogenes: 20 million CFU

Amino acids: 2g. With essential digestive enzymes and liver extract.

Dosage: Cattle and Buffaloes: 1-2 Boluses per day per 3-5 days.

Calves, Sheep & Goats: ½ Bolus per day per 3-5 days.
Or as advised by the consultant Veterinarian.

Route of Administration: Oral.

Presentation: 4 Bolus.

IMPROVIT

A B C D E

Benefits:

- Improves growth & immunity.
- Supportive supplement during chick stage, vaccination, debeaking and infections.
- Reduces stress related to transportation and other external conditions.
- Improves nutrient absorption.
- Corrects calcium and phosphorus metabolism.

Composition: Each 5 ml contains	
Vitamin A	250000 IU
Vitamin D3	25000 IU
Vitamin E	150 IU
Vitamin C	500 mg
Vitamin B12	100 mcg

Dosage: Chicks: 5 ml per 100 chicks per day.

Growers/Layers / Broilers: 5 to 10 ml per 100 birds per day.

Cattle and Buffaloes: 10 ml daily. | **Calves, Sheep & Goats:** 5 ml. daily.

Or as advised by the consultant veterinarian.

Route of Administration: Oral.

N-MIN BOLUS

Chelated Minerals Fortified With Coated Vitamins

Benefits: Anoestrus, silent heat, delayed maturity, habitual abortions.
Repeat breeding due to early embryonic death.

Composition: Each bolus Contains			
Copper Sulphate	500 mg	Chromium	1mg
Cobalt Sulphate	40 mg	Calcium	920 mg
Iodine	6 mg	Phosphorus	720 mg
Ferrous Sulphate	100 mg	Vitamin A	1750 IU
Manganese	30 mg	Vitamin D3	175 IU
Selenium	2 mg	Vitamin E	5 mg
Zinc	25 mg		

Dosage: Cattle & Buffaloes: 2 Bolus per day.

Sheep & Goats: 1 Bolus per day.

Or as advised by the consultant Veterinarian.

Route of Administration: Oral.

Presentation: 10 Bolus.

COMFORT

Herbal Topical Spray

Broad Spectrum Herbal Wound healing spray, Fly Repellent & Maggoticidal Activity.

INDICATIONS:

Anti - fungal and Anti - Bacterial. Maggoted Wounds and Chronic Wounds. Surgical wounds, Dermatomycolysis and other infections. FMD wounds and Nonspecific skin infections.

COMPOSITION:

Pinus roxburghii	24 % w/w	Psoralea corylifolia	1 % w/w
Eucalyptus globulus	5 % w/w	Acorus calamus	0.2 % w/w
Pongamia pinnata	4 % w/w	Solvent and Propellants	q.s
Cedrus deodara	3 % w/w	Permitted Colours	Curcumin

DOSAGE:

Clean the affected area and apply COMFORT topically twice daily until recovery.
or as advised by the consultant Veterinarian.

CAUTION : FLAMMABLE

Pressurised container, keep away from heat and sunlight. Do not expose to temperature exceeding 50°C. Do not spray on naked flame or incandescent material. Avoid contact with eyes. Avoid direct inhalation harmful if taken internally.

MASTI-TS

Indications: Sub Clinical Mastitis. As an adjunct in clinical mastitis along with antibiotic therapy.

Composition: Each 50 gm Contains			
Tri sodium citrate	2500 mg	Serratiopeptidase	140 mg
Vitamin A	70000 IU	Niacin	800 mg
Vitamin D3	20000 IU	Thiamine	150 mg
Vitamin E	1000 IU	Biotin	15 mg
Vitamin C	1000 mg	Selenium	4 mg
Vitamin K	100 mg	Methionine	200 mg
Excipients : q.s			

Dosage: 50g (one sachet) per day for 4-5 days.

Or as advised by the consultant Veterinarian. | **Route of Administration:** Oral.

Presentation: 50 g Sachets
